Complex solutions for rail and public transport vehicles  
EN 45545-2

**WE ACCELERATE INDUSTRY**

The Gamtech company cooperates with the railway industry since 2002.

We provide professional technical advice in the selection of materials used in the production of rail vehicles.

We use solutions in accordance with the European standard EN 45545-2.

### Construction plastics and rubber products with EN 45545-2 for rail vehicles.

1. Light line covers	14. Technical pipe lagging
2. Electrical equipment insulation housings	15. Cockpit indicator covers
3. Armaflex materials (pipes, tapes, adhesives)	16. Insulating tapes
4. Windshield rubber gasket	17. Grips and gaskets (rubber, silicone)
5. Headlight rubber gasket	18. Cooling column gaskets
6. Spacer washer	19. Ramp gaskets
7. Rubber gasket with adhesive layer	20. Silicone hoses
8. Lamp shades LED	21. Inserts and dividers (rubber, silicone)
9. Soundproofing insulation	22. Hole plugs
10. Clamps for electric cables	23. Thermal insulation
11. Rubber bumpers	24. Match cover gaskets
12. Electric contractor covers	25. Adhesive sealant
13. Transformer covers	26. Interior door locks and inserts

The Gamtech company cooperates with the automotive industry, which produces public transport vehicles.

Close cooperation of Gamtech technical advisors with technologists and designers of our business partners allows us to constantly develop and tailor solutions to the individual needs of our customers.
